Pickleball

Mondays, Tuesdays, Wednesdays, Thursdays and Fridays at the Kittery Community Center

What is the fastest growing sport in the country right now? You guessed it...

PICKLEBALL! Pickleball is a racquet sport in which two or four players use solid paddles made of wood or composite materials to hit a perforated polymer ball over a net. The sport shares features of other racquet sports, the dimensions and layout of a Badminton court, and a net and rules similar to tennis, with a few modifications. Pickleball was invented in the mid- -1960s as a children's backyard pastime but has quickly become popular among adults as a fun game for players of all skill levels. Currently, the sport of pickleball is exploding in popularity. The number of places to play has nearly doubled since 2010. There are now well over 2,000 locations on the USAPA's Places to Play map. The spread of the sport is attributed to its popularity within community centers, PE classes, YMCA facilities and retirement communities. The sport continues to grow worldwide as well with many new international clubs forming and national governing bodies now established in Canada and India.

We were excited that pickleball is growing, and we are equally enthusiastic about collaborating with Kittery Recreation again for Indoor Fall/Winter Pickleball! If you haven't tried it, you should, it's a lot of fun. Pickleball can be played by all level of players at the same time, so you should not feel intimidated if you are a beginner.

This year we are offering both staff facilitated sessions as well as pick-up options. Each session will have equipment available for your use, however those who have become hooked have preferred purchasing their own paddles. [More Info...](#)
