

Outdoor Adventure Camp - Week 1

June 29th - July 3rd
Welcome Week

Monday, June 29th- Welcome to Camp-2-Go

We'll start our first day of camp with our weekly morning Zoom meeting called "The Breakfast Club". We'll be discussing what activities we have planned for the day and showing off our "Breakfast of Champions". Whoever is deemed to have the "Breakfast of Champions" by our directors wins a HoF point! The rest of the morning we'll be creating recycled robots! In the afternoon we'll take our first virtual field trip and start our week-long project "GooseChase" to end the day!!

Tuesday, June 30th- Nature Hunt with Robin Kerr

Hopefully, today we can get outside! Robin Kerr will be helping us find some neat things in nature aka "Neature" :) Check out our video to see what we're looking for and where to find it! After our time outside we're going to create large scale tropical flowers & leaves for our camp tree! In the afternoon you're going to learn how to juggle!

Wednesday, July 1st- STEM

This morning for our STEM project we will be making our very own clouds in a jar! Following that, we'll start construction on our pillow/blanket forts! We'll take this opportunity to learn about architecture and interior design. Lastly we will check in on how everybody is doing with this week's "GooseChase"!

Thursday, July 2nd- Legg Day

No, that's not a typo! We're going to start our morning with a guided workout led by none other than York, Maine Ocean Rescue employee of the decade, Adam Legg! Club meetings will take up most of the day. If you've got time in between or while waiting for your club to meet, then try out our unfinished writing prompt. The most compelling story will be read during our OAC Top 10 Friday, during lunch.

Friday, July 3rd- GooseChase Finale

Today we finish our week-long GooseChase! We'll take time to share some photos and funny stories with each other. During lunch today we will review the OAC Top 10 highlights of the week. This could be anything from breaking a record in the OAC Book of Records to an art project that brings the counselors to emotion. Towards the end of the day we will be discussing how to start our interactive camp video! Check out our google classroom for a sneak peek at next week!
