

# **T-Ball Protocols**

In order to have a fun, safe season we are asking all coaches, players, & spectators to cooperate with the following York Parks & Recreation Department program protocols. Please read through and adhere to the following:

- Parents/guardians please symptom check your child before games. If anyone in the family is sick, please stay home!
- Masks must be worn by players, coaches, and spectators at all times. Encourage high risk individuals to stay home.
- We recommend spectators bring a lawn chair to sit. Please spread out around the outside of the field and physically distance from other family groups. When possible, limit how many people your family brings to the games. Please do not sit behind backstops or near the on-deck area.
- Only players and coaches will be allowed in the dugouts, by the backstop, and on the field.
- Players must social distance as best they can when in their respective dugout. Sunflower seeds and food are not permitted on the field or in the dugouts.
- Players must provide their own water, hand sanitizer, and mask. Please sanitize frequently. Please, no sharing of water bottles.
- Players must provide their own glove and helmet. We will have the rest of the equipment needed to play. Equipment will be sanitized by staff between games.
- When your child's game is finished, please exit the complex immediately so we can maintain safe social distancing between games and start the next game on time. Please be careful walking through and exiting the parking lot.
